

# Math-o-lanterns

**Who:** Any student who currently has a 90% or greater in both their Classwork & HW grades can earn extra credit (...because if you have not been completing your regular work, it doesn't make sense to do *extra-credit*). Others can simply do it for *math-0-magical fun*!

**What:** Similar to Jack-o-lanterns, you carve or decorate your pumpkin with math-related designs. Your pumpkin must be at least 15 cm in diameter, but not larger than 25 cm in diameter if you want to take part in the “pumpkin launch” before Halloween.

**When:** You can bring in your **Math-o-lanterns** from Monday, October 25<sup>th</sup> until Friday, October 29<sup>th</sup>. **Not before and not after those dates!**

**Why:** Because it's festive, it's fun, and you can earn *extra credit!*  
**Bonus** from 5 to 15 points within the class projects category!
